Welcome to Lafayette Physical Therapy and Bay Area Physical Therapy!

We wanted to take the time to thank you for choosing us as your partner to wellness and rehabilitation. Our goal is to restore movement and improve function through the individualized care with our staff of professional, highly trained and educated physical therapists. Please do not hesitate to call our Front Desk with any questions or concerns at the appropriate location.

Information for your first visit:

Please review and complete the attached paperwork and bring it with you to your first visit. The paperwork attached is for clients with **MOTOR VEHICLE** insurance as their primary insurance for this case. If you have a different primary insurance for this case please contact our front desk for new forms or download the correct forms from our website.

Please arrive early for your first appointment. If you choose to complete your paperwork in the office on the day of your appointment we recommend coming in 20-30 minutes before your scheduled appointment time. If you bring this packet completed we recommend coming in 5-10 min before your scheduled appointment time in order to check you in, go over your benefits and give you the most time to work with your Physical Therapist.

What to Bring

- A referral form signed by your physician (if applicable).
- Any test results, MRI reports, or X-ray reports relevant to the condition for which you are seeking care for.
- Medications List
- Proof of your insurance, such as an insurance card.
- Photo identification, such as your driver's license.
- Method of payment (if applicable) for deductibles, copayments, co-insurances, etc.
- For minors – please have a Parent or Guardian complete the paperwork and attend the first visit for patients under the age of 18 years.

What to Wear

Please arrive in comfortable clothing and shoes that allow for your full range of motion as well as accessibility for your therapist to work on the affected area.

Evaluation

Your first visit with us will be an opportunity for your physical therapist to assess your specific condition, needs, and to create a plan of care. The evaluation appointment is scheduled for 60 min, however, please allow up to an hour and 15 min for the full process.

Your physical therapist will:

- Perform an evaluation by reviewing your medical history, discussing your condition with you, carrying out tests and measures (such as Range of Motion and Strength testing), and making clinical judgments based on the data gathered during this examination.
- Develop an individualized treatment plan based on the evaluation and will make adjustments as needed throughout your course of care.
- Communicate with you on your condition, treatment plan, functional goals and progress.
- Provide information and education to you, your family or caregivers (if present) about your treatment plan, prevention, and individualized home programs to maintain function achieved during physical therapy.
- Work in partnership with your referring physician to maintain synergistic care.

Subsequent Visits

Please allot 45 to 60 minutes for all subsequent visits. During your visit, you will be attended to by your physical therapist and our exceptionally educated and trained physical therapy aide staff.

To schedule an appointment please stop by our front desk or call them at the appropriate front desk number for assistance.

We recommend scheduling your subsequent visits several weeks in advance in order to book appointments on your preferred days and times. We usually schedule our patients with one primary therapist and provide a recommended alternate therapist in the event that your primary therapist is not available or a particular day or time is no longer conducive to your schedule.

We encourage consistency in your attendance as it can be a major key to your recovery. Please review the "Late cancellations & No Show policy", as well as our other important policies and procedures attached for specific information on our agreements with our patients.

Throughout Your Care

Communication throughout your care is very important. If you have questions about your condition, progress, goals, or any other part of your care please discuss them with your therapist. If you have questions about your insurance, benefits, authorization, billing statements, or any other items please ask to speak to our administrative team right away. You will be asked to fill out several surveys throughout your care which help your therapist assess your initial condition and progress. It is extremely important that you complete these surveys and answer as honestly as possible. Our goal is to provide the best possible care and experience for you.

Thank you and we look forward to working with you towards recovery!

Initial

 2. **Account Responsibilities:** It is your responsibility to know your insurance coverage including deductibles, co-payments, visit limits, etc. Please verify your coverage with your insurance company. In the event that your insurance refuses to pay or does not pay within 90 days, you will be responsible for your balance in full. Many insurance companies have additional conditions that may affect your coverage. If your insurance carrier denies any part of your claim, or if you elect to continue therapy past the approved period, you will be responsible for your account balance.
 3. **Late Policy:** Please be on time for your appointments. A professional staff member has been scheduled to treat you specifically. If you are late by 10 minutes or more you may be required to reschedule or wait for the next available appointment.
